

Hai , my name is Sai teja . Am from Hyderabad.
After grinding so hard I qualified by EAMCET and JEE and I opted for a local college and I was very excited because me, being in engineering college is like a dream come true .
But the college is not as I expected. and the same punishments for coming a few minutes late and poor faculty got me disappointed and I've taken a big, sudden, aggressive, not in a good state of mind decision.
I dropped out from my engineering.

Growing up as a child I was always interested in computers, software, technology and was always dreamt of becoming an engineer .
And just like that all my dreams and future plans just got Deleted. and with this depression, two years went by and I had no plans.
and out of nowhere my friend told me about EdYoda and without any second thoughts, I joined this course.
and this is the chance to prove myself that I can do this . so this is how I ended up joining this awesome institute.
Thank You.
